"Inspiring, motivating, and innovative! Such a great and valuable day!"

This isn't your typical leadership workshop.

This workshop, based on Bob Kelleher's best-selling book *Louder Than Words: 10 Practical Employee Engagement Steps That Drive Results*, AND his recently released *I-Engage, Your Personal Engagement Roadmap*, teaches attendees how to create culture of accountability and measurement; how to personalize and engage the many generations in the workplace; how to hire the ideal behaviors and traits to succeed in your culture; and practical real-life applications and tools to accelerate and sustain engagement efforts.

By pairing Bob Kelleher and Amanda Laden with The Employee Engagement Group's signature style of learning through fun and engaging activities, participants learn from both the facilitators and each other, and will walk away with an arsenal of tools and exercises that they can immediately implement with their own staff.

Experiential learning exercises - all with a strong team building elements - allows participants to learn through real-life examples from their colleagues and peers.

Case studies will reinforce the keys themes of the day, by highlighting best practices of high performing organizations in a variety of industries.

Participants will adapt what they have learned during each of the 10 steps of engagement into their own **Leadership Change Plan**, which they can bring back to their workplace and implement immediately.
